CAPITAL ADEQUACY

The Company monitors the solvency capital in compliance with the requirements from the OIC.

Thailand has implemented RBC regulation since September 2011. In December 2019 the RBC regulation was updated with the implementation of RBC II, which updates and enhances the capital standards to be more comprehensive.

The key metric used by the regulator is the Capital Adequacy Ratio (CAR), defined as Total Capital Available (TCA) divided by Total Capital Required (TCR), which needs to remain above the supervisory CAR to maintain financial strength and avoid potential regulatory intervention.

The table below illustrates that throughout the year, the Company has a strong capital position, that is significantly above the minimum CAR of 120%.

Unit: Million Baht

Capital Items	Quarter 1		Quarter 2		Quarter 3	
	2020	2019	2020	2019	2020	2019
Capital Adequacy Ratio (%)	1,484	1,399	1,500	1,427	XXX	1,468
Total Capital Available	445	420	450	428	XXX	440
Total Capital Required	30	30	30	30	XXX	30

Remarks: - According to the OIC's RBC capital valuation of Non-Life Insurance Companies, the Registrar may determine the necessary procedures to manage companies with a CAR below the followings:

- (1) 120% from December 31st, 2019 to December 31st, 2021
 - (2) 140% from January 1st, 2022 onwards
- Capital refers to RBC capital valued according to the OIC's Notification on the Valuation of Assets and Liabilities of Non-Life Insurance Companies
 - Quarter 2 is 6-month accumulated operating results and Quarter 3 is 9-month accumulated operating results.

INTERIM FINANCIAL INFORMATION (UNAUDITED)

30 JUNE 2020

AUDITOR'S REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Executive Committee of AIA Company Limited

I have reviewed the interim financial information of AIA Company Limited (Non-Life Insurance) Thailand Branch, which comprises the statement of financial position as at 30 June 2020, the statements of comprehensive income for the three-month and six-month periods then ended, the related statements of changes in equity and cash flows for the six-month period then ended, and the condensed notes to the interim financial information. Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34, "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34, "Interim Financial Reporting".

1. General information

AIA Company Limited (Non-Life Insurance) Thailand Branch ("the Branch") is a branch in Thailand of AIA Company Limited ("AIA") whose ultimate holding company is AIA Group Limited ("AIA Group"), a company incorporated in Hong Kong and listed on the Stock Exchange of Hong Kong Limited.

The address of the Branch's registered office is AIA Tower 1, 8th Floor, 181 Surawongse Road, Suriyawongse District, Bangrak, Bangkok 10500.

The principal business operations of the Branch is to provide non-life insurance, personal accident and health insurance.

This interim financial information has been approved by the Branch's management on 11 August 2020.

This interim financial information has been reviewed, not audited.

2. Basis of preparation the interim financial information

The interim financial information has been prepared in accordance with Thai Accounting Standard 34 Interim Financial Reporting. The primary financial information (statement of financial position, statement of comprehensive income, statement of changes in Head Office's equity and cash flows) is presented in a format consistent with the annual financial statements complying with Thai Accounting Standard 1 Presentation of Financial Statements. In addition, the interim financial information presentation is based on the formats of interim financial information attached in an Office of Insurance Commission's notification "Principle, methodology, condition and timing for preparation, submission and reporting of financial statements and operation performance for non-life insurance company (No.2) B.E. 2562" dated on 4 April 2019 ("OIC notification"). The notes to the interim financial information are prepared in a condensed format. Additional notes are presented as required by the aforementioned OIC Notification.

The interim financial information should be read together with the annual financial statements for the year ended 31 December 2019.

An English version of the interim financial information have been prepared from the interim financial information that are in the Thai language. In the event of a conflict or a difference in interpretation between the two languages, the Thai language interim financial information shall prevail.

Income taxes in the interim periods are accrued by using the expected income taxes in the interim period.

3. Accounting policies

The accounting policies used in the preparation of the interim financial information are consistent with those used in the annual financial statements for the year ended 31 December 2019, except for the following:

1. the adoption of the new financial reporting standards as described in Note 4
2. the Branch did not apply the temporary exemption guidance to relieve the impact from COVID-19 (temporary measures to relieve the impact from COVID-19) announced by the Federation of Accounting Professions (TFAC) for the reporting period ended 30 June 2020.

AIA Company Limited (Non-Life Insurance) Thailand Branch
Condensed Notes to the Interim Financial Information (Unaudited)
For the interim period ended 30 June 2020

4. Adoption of new financial reporting standards and changes in accounting policies

Adoption of new financial reporting standards

On 1 January 2020, the Branch passes criteria of temporary exemption from TFRS 9 Financial Instruments and TFRS 7 Financial Instruments: Disclosures under TFRS 4 (revised 2018) Insurance Contracts. The Branch is eligible to apply the 'financial instruments and disclosures for insurance companies' accounting guidance' ('the Accounting Guidance').

The Branch has adopted financial reporting standards relating to financial instruments (TAS 32, and the Accounting Guidance) and leases standard (TFRS 16) retrospectively from 1 January 2020, but has not restated comparatives for the 2019 reporting period, as permitted in the standards. The adjustments arising from the new requirements are therefore recognised in the opening statement of financial position on 1 January 2020.

The following tables show the adjustments made to the amounts recognised in each line item in the statement of financial position upon adoption of the financial reporting standards relate to financial instruments (TAS 32 and the Accounting Guidance) and leases standard (TFRS 16):

	As at 31 December 2019 Previously reported Baht	TAS 32 and the Accounting Guidance Adjustments Baht	TFRS 16 Adjustments Baht	As at 1 January 2020 Restated Baht
Assets				
Investment in securities	442,709,218	-	-	442,709,218
Other assets	24,764	-	1,105,499	1,130,263
Total assets	442,733,982	-	1,105,499	443,839,481
Liabilities and Head Office's equity				
Liabilities				
Other liabilities	5,016,710	-	1,114,697	6,131,407
Total liabilities	5,016,710	-	1,114,697	6,131,407
Head Office's Equity				
Remeasurements of investments measured at fair value through other comprehensive income, net of tax	15,479,724	28,869	-	15,508,593
Branch's retained earnings	285,301,560	(28,869)	(9,198)	285,263,493
Total Head Office's equity	300,781,284	-	(9,198)	300,772,086
Total liabilities and Head Office's equity	305,797,994	-	1,105,499	306,903,493

4. Adoption of new financial reporting standards and changes in accounting policies (Cont'd)

Adoption of new financial reporting standards (Cont'd)

The adoption of the new financial reporting standards on financial instruments mainly affects the Branch's accounting treatment as follows;

Impairment

The new requirements on the impairment losses will lead to expected credit losses having to be considered and recognised at the initial recognition and subsequent period. The Branch accounts for expected credit losses which involves a three-stage expected credit loss impairment model. The stage dictates how the entity measures impairment losses and applies the effective interest rate method. As of 1 January 2020, the Branch recognised impairment losses for investment in securities of Baht 36,087. The transition adjustment will be recognised as an adjustment to the opening balance of retained earnings.

The Branch adopted TFRS 16 and recognised lease liabilities in relation to leases which had previously been classified as 'operating leases' under the principles of TAS 17 Leases. At adoption of TFRS 16, lease liabilities at transition date were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 January 2020. The weighted average lessee's incremental borrowing rate applied to the lease liabilities on 1 January 2020 was 2.14%.

	<u>Baht</u>
Operating lease commitments disclosed as at 31 December 2019	286,768
<u>Less</u> Discounted using the lessee's incremental borrowing rate at the date of initial application	(42,362)
<u>Add</u> Adjustments as a result of a different treatment of extension and termination options	952,405
<u>Less</u> Other adjustments	(82,114)
Lease liability recognised as at 1 January 2020	<u>1,114,697</u>

The associated right-of-use assets for property leases were measured on a retrospective basis as if TFRS 16 had always been applied. The right-of use assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepayment relating to that lease recognised in the statement of financial position as at 31 December 2019. There were no onerous lease contracts that would have required an adjustment to the right-of-use assets at the date of initial application.

The recognised right-of-use assets relate to the following types of assets:

	<u>30 June 2020 Baht</u>	<u>1 January 2020 Baht</u>
Buildings and improvements	953,875	1,105,499
Total right-of-use assets	<u>953,875</u>	<u>1,105,499</u>

Practical expedients applied

In applying TFRS 16 for the first time, the Branch has used the following practical expedients permitted by the standard with lease agreements effective prior to 1 January 2020:

- the accounting for operating leases with a remaining lease term of less than 12 months as at 1 January 2020 as short-term leases or lease contracts for low value assets, and
- the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

4. Adoption of new financial reporting standards and changes in accounting policies (Cont'd)

Changes in accounting policies from adoption of the financial reporting standards related to financial instruments and leases

Investment in securities

Classification and measurements

From 1 January 2020, the Branch classifies its financial assets as follows:

- Investments measured at fair value through other comprehensive income (FVOCI)

The Branch initially recognises a financial asset on trade date at its fair value plus transaction costs that are directly attributable to the acquisition of the financial asset.

Impairment

From 1 January 2020, the Branch assesses expected credit loss on a forward looking basis for its financial assets classified as debt securities carried at FVOCI and at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. The Branch always accounts for expected credit losses which involves a three-stage expected credit loss impairment model. The stage dictates how the entity measures impairment losses and applies the effective interest rate method. In which, the three-stage expected credit loss impairment will be as the following stages:

- Stage 1 - from initial recognition of a financial assets to the date on which the credit risk of the asset has not increased significantly relative to its initial recognition, a loss allowance is recognised equal to the credit losses expected to result from defaults occurring over the next 12 months.
- Stage 2 - following a significant increase in credit risk relative to the initial recognition of the financial assets, a loss allowance is recognised equal to the credit losses expected over the remaining life of the asset.
- Stage 3 - When a financial asset is considered to be credit-impaired, a loss allowance equal to full lifetime expected credit losses is to be recognised.

The expected credit loss will be recognised in profit or loss.

Right-of-use assets and lease liabilities

The Branch leases offices. Rental contracts are typically made for fixed periods of 3 years but may have extension options. Before 2020 financial year, leases of property, plant and equipment were classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) were charged to profit or loss on a straight-line basis over the period of the lease.

From 1 January 2020, leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Branch. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. Right-of-use assets are recorded as part of "Other assets" in the statement of financial positions.

4. Adoption of new financial reporting standards and changes in accounting policies (Cont'd)

Changes in accounting policies from adoption of the financial reporting standards related to financial instruments and leases (Cont'd)

Right-of-use assets and lease liabilities (Cont'd)

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate
- amounts expected to be payable by the lessee under residual value guarantees
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss.

5. Estimates

The preparation of interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies lead to the reported amounts of assets and liabilities, income and expense may differ from these estimates.

In preparing this interim financial information, the significant judgements made by management in applying the Branch's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements for the year ended 31 December 2019.

6. Fair value

6.1 Fair value estimation

The table below presents financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities, and the Branch is able to access that market on valuation date.
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data.

The following table presents fair value of the Branch's financial assets that are measured at fair value as at 30 June 2020 and 31 December 2019:

	Level 1 Baht	Level 2 Baht	Level 3 Baht	Total Baht
As at 30 June 2020 (Unaudited)				
Asset				
Investment in securities				
Investments measured at fair value through other comprehensive income				
Debt securities	-	451,692,752	-	451,692,752
Total asset	-	451,692,752	-	451,692,752
As at 31 December 2019 (Audited)				
Asset				
Investment in securities				
Available-for-sale securities				
Debt securities	-	442,709,218	-	442,709,218
Total asset	-	442,709,218	-	442,709,218

6.2 Valuation techniques used to derive Level 2 fair values

Level 2 marketable debt securities are fair valued based on quoted by reference to the yield curve of the Thai Bond Market Association at the statements of financial position date.

20. Income tax expenses

The interim income tax expense is recognised based on the management's best estimate of the weighted average annual income tax rate expected for the full financial year applied to the pre-tax income of the interim period.

21. Related party transactions

Entities and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the Branch, including holding companies, subsidiaries and fellow subsidiaries are related parties of the Branch. Key management personnel, including directors and officers of the Branch and close members of the family of these individuals and companies associated with these individuals also constitute related parties.

In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

Significant related party transactions are transacted at prices negotiated between the parties involved.

Significant transactions with Head Office, related parties and affiliates within AIA Group Limited are as follows:

a) Statements of Comprehensive Income

	(Unaudited)	
	For the three-month period ended

**AIA Company Limited (Non-Life Insurance) Thailand Branch
Condensed Notes to the Interim Financial Information (Unaudited)
For the interim period ended 30 June 2020**

21. Related party transactions (Cont'd)

Significant transactions with Head Office, related parties and affiliates within AIA Group Limited are as follows: (Cont'd)

b) Statements of Financial Position

	(Unaudited) 30 June 2020 Baht	(Audited) 31 December 2019 Baht
Affiliated companies		
Amounts due from related parties	164,751	229,307
Other assets	953,875	-
Other liabilities	965,281	-
Head Office and affiliated companies		
Amounts due to related parties	56,924	44,967

c) Key management compensation

Key management personnels are those people having authority and responsibility for planning, directing and controlling the activities of the Branch. There are no such personnels employed directly by the Branch. These activities are determined by Head Office.

22. Commitments

As indicated in note 4, the Branch has adopted TFRS 16 retrospectively from 1 January 2020, but has not restated comparatives for the 2019 reporting period as permitted under the specific transition provisions in the standard. Prior to the adoption of TFRS 16, the Branch had future aggregate minimum lease payments under non-cancellable operating leases as follows:

	(Audited) 31 December 2019 Baht
Within 1 year	251,280
Later than 1 year but not over than 5 years	35,488
Total	286,768

MATERIAL CHANGE

2.2 THE COMPANY STRUCTURE

MATERIAL CHANGE

2.3 BOARD AND MANAGEMENT STRUCTURE

Board and Management

Wai Cheong Fung
Chief Executive Officer

Responsible for the successful leadership and management of the AIA Thailand to fulfil AIA Group's vision of being a pre-eminent life insurance provider in Asia Pacific and its purpose of driving social and economic development across the region.

Hiew Tet Chian
Chief Financial Officer

Responsible for overseeing financial strategies as well as strategic business plans and projects of the company for future business growth. This includes financial reporting, business analysis, and budgeting. Providing consultative support to planning initiatives through financial and management information analyses and recommendation. In addition, managing Actuarial, Real Estate, Distribution Administration & Management Information, and Project Management Office to support the business.

Johann Detoit
Chief Investment Officer

Responsible for formulating and recommending the overall investment plan and asset allocation strategy and implementation of the asset allocation and yield enhancement strategies to maximize investment portfolio with proper risk management to support insurance products & asset liability management.

Loo Boon Teik
Chief Risk Officer

Responsible for the development of relevant risk and compliance framework, policies and procedures and overseeing the implementation of an effective risk assessment and compliance program. Engaging with key business stakeholders to ensure key regulatory, ethical, financial and operation risks (including emerging risks) are identified and properly managed, and ensure compliance with all regulatory requirements.

Julie Van Nuffel
General Counsel and
Business Development

Responsible for supporting the company in setting and executing its corporate strategy, as well as in managing its legal risk (but excluding providing any legal advice, legal services or litigation work with respect to Thai law).

Kris Chantanotoke
Chief Agency Officer

Responsible for driving the sustainable growth of the agency business and developing short-term and long-term business objectives and targets. Driving agency transformation and enhancing agency force's engagement through enhanced service levels and ongoing sales initiatives. Managing, Coaching, and supporting Agency Distribution Management on production management and another field management.

Aekkaratt Thitimon
Chief Marketing Officer

Responsible for overseeing the planning, development and execution of an organization's product strategy, marketing, branding and advertising initiatives. The primary responsibility is to generate revenue by increasing sales through successful marketing for the entire organization, using market research, pricing, product marketing, marketing communications, advertising and public relations.

Sarunya Tienthavorn
